

# SHEET METAL #10 BENEFIT FUND

**90dayRx** *Save money at the pharmacy.*

*Is the 90dayRX program right for you?*

## Save money every time you refill a prescription

Prescription drugs can be expensive. If you have a chronic medical condition, such as high cholesterol, asthma or diabetes, it is likely that you are taking long-term medications (*"maintenance medications"*) to improve your health. The 90dayRx program is a great way for **you and the Plan to save money** each time you refill your maintenance medications. 90dayRx lets you take advantage of special discount pricing, and no dispensing fees, at certain retail pharmacies when you order a three-month supply.

## 90dayRx gives you two ways to save

With the 90dayRX program, you decide how you'd like to receive your prescriptions.

- You can order your refills by mail and have them delivered right to your home.
- Or you can go to a participating neighborhood pharmacy and have them filled on the spot.
- To find a retail pharmacy closest to you, go to [www.myprime.com](http://www.myprime.com).

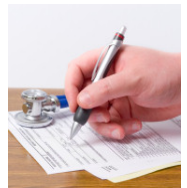

## How to use 90dayRx

### At the pharmacy:

Step 1: If your maintenance medication is not currently being prescribed for a 90-day supply, ask your doctor to write your prescription for a 90-day supply. Or if you prefer, your pharmacist can ask your doctor to change your prescription to a 90-day supply.

Step 2: Go to a pharmacy that participates in the 90dayRx program. To find one near you, go to [www.myprime.com](http://www.myprime.com) (from the drop down list chose BCBS Minnesota/Flex Rx Formula, then enter your Zip code).

### Home delivery:

Step 1: Ask your doctor to write your prescription for a 90-day supply.

Step 2: Get an order form online at [www.myprime.com](http://www.myprime.com), click on the "MyPrimeMail.com" icon. Or you can also call 1-800-509-0545 if you have any questions.

Step 3: Fill out the order form and mail it with your prescription and payment to PrimeMail. You can then order refills online by going to [www.myprime.com](http://www.myprime.com), or by calling 1-877-357-7463.

**Remember, the best way to save money on prescription drugs is to be an informed consumer.**
